Hi Cynthia,

Sorry, this got away from me yesterday. Here's a list of project off the coast of New England and their air permitting status:

Vineyard Wind 1 – final permit issued May 2021  
South Fork Wind – draft permit public comment period ends Dec 2021  
Sunrise Wind – notice of intent to submit air permit submitted September 2021  
Park City Wind – notice of intent to submit air permit submitted August 2020  
Revolution Wind – notice of Intent to submit air permit submitted Nov 2021

Beacon Wind – preapplication meetings, NOI anticipated in late-2022  
Mayflower Wind – preapplication meetings, NOI anticipated in mid-2022  
Commonwealth – preapplication meetings, NOI part of Park City's, permitting is uncertain and dependent on decision from Massachusetts' Section 83C Offshore Wind Energy Generation request for proposals  
Bay State Wind – preapplication meetings, NOI submitted in 2019, project status uncertain

Air permitting I think would be appropriate for the NEFP. Thanks

Cynthia L. Greene,

Sure. Are you looking for status on over all development? Or air permitting?

Pat

Do you have a simple list of the projects and status that I could share with the New England Federal Partners?
